

# USB to DVI, HDMI and VGA Display Adapter

UDA1100

The Cirago UDA1100 USB to DVI, HDMI and VGA Display Adapter is a simple solution for setting up additional monitor, LCD, or projector from a USB port on your desktop or laptop, without adding a video card. It outputs to most popular interfaces – DVI, HDMI<sup>1</sup>, or VGA<sup>2</sup>, and enables clone, extended, or rotation mode to satisfy different display needs.

Its outstanding built-in capabilities allow up to four additional displays on a single Mac computer (up to six on a PC) – one UDA1100 per display connection. With increased desktop area, it makes viewing extensive spreadsheets, reading lengthy documents, or working with multiple applications fast and easy.

The adapter is light and compact with onboard headphone and microphone jacks. It offers convenience and enables higher productivity in the office, at home, or on the road.

<sup>1</sup> Through a DVI to HDMI adapter - included  
<sup>2</sup> Through a DVI to VGA adapter - included
