

# NuView® Dock Charger

IPA5000

Cirago's NuView Dock Charger (IPA5000) doubles as a solid, yet portable desktop stand for the New iPad (3rd gen), iPad 2, and the original iPad.

View your iPad in landscape mode by simply placing the iPad horizontally in the NuView and at the same time sync/charge using your own cable.

Or, charge your iPad with the built-in 30-pin dock connector and 5V power adapter connected directly to the wall outlet while the NuView holds the device vertically at a perfect viewing angle.

At just 3" square and only 2" high, NuView offers a surprisingly solid base for the iPad in a very small form factor that makes it easy to throw into your bag for on-the-go use. As an added bonus, the NuView can also charge other 30-pin iOS devices that fit in the NuView for an all-around charge solution.

The NuView is MFI certified by an Apple approved testing facility and bears the Made for iPad authentication.

- Supports vertical and horizontal orientations, providing perfect viewing angles for your iPad
- Charges your iPad - when docked vertically
- Sync/Charge your iPad using you own cable – when positioned horizontally
- Works with the New iPad (3rd gen), iPad 2, and the original iPad
